

**-Prof. (Dr.) K.S Bhati**  
**Advisor STCL**

### **Advisor's Message**

Our vision is based on hard work, open communication, a strong emphasis on team work and a high level of responsibility. This visionary culture allows and emphasizes our pupils not only to adopt the present day challenges but also to shoulder individual responsibilities to the society and our nation at large. Learning should be based on doing things and not merely knowing things. Until and unless learning solutions relate to real life and motivate the learner to acquire and apply further knowledge, the whole process will remain superficial. Any institution worth its name looks to optimize the productivity of global leaders. Our institution has set specific objectives and planned activities for achieving excellence in all spheres of legal education. The service of the institution in creating personally mature, professionally equipped and service-oriented graduates is really worth mentioning. We firmly believe in excellence and discipline which is not an act but a habit.

People who feel good about themselves, produce good results and people who produce results feel good about themselves. We also believe in total learning and sharing their knowledge and experience. Welcome to STCL Campus. Which is an Institute inspiring the students to have faith in their thoughts to think success, not to think failure, that they are better than they think of themselves. They are told to learn that 'No Excuse is a Good Excuse', because actions speak louder than the words. They are motivated to be moral, be brave, be at heart a whole man or a woman, strictly moral and brave unto desperation. Not to bother their heads with many theories. Try to love anybody and everybody. In the making of STCL a lot gigantic work has been put into to make the system live & vibrant. Further, the whole team along with faculty, students and management deserve big 'accolades'. Wishing you a very emotional, intellectual, psychological, knowledgeable stay at STCL and proudly achieved success in future.

“You don't have to be great to start, but you have to start to be great.”
